RELEVANT EXPERIENCE

Frontend Developer
HNG Internship

August 2019 – October 2019 Remote

– Collaborated with developers to develop projects for websites throughout various phases of project life-cycle
– Developed cross-browser and cross-device compatibility
– Maintained existing code and functionality before submission
– Worked in Agile development environment using Scrum methodologies

Frontend Developer
Freelance

July 2018 – Now Nigeria

– Developing, optimizing and maintaining the websites and applications utilizing HTML, CSS, Javacript, various APIs to meet my clients' needs and goals
– Managing the creative projects from concept to completion.
– Developing and maintaining frontend applications using Vue.js
– Implementing responsible web design principles to ensure that a website renders well across multiple devices.
– Working by Scrum framework
– Tracking issues and version control using Git

SCHOOL PROJECTS

Front end team - WhyGoSolo
2nd Year Project

September 2015 – March 2016 Bangor, United Kingdom

- Working with other students to develop a social networking site
- Perform code reviews of source code submitted by other team members
- Proactively report to project supervisor about my work
- Maintain a good development process and workflow, including identifying and implementing optimizations
- Techs: HTML, CSS, Javascript and Bootstrap

Internet of things and the role users have in the emerging privacy and security concerns in smart devices
Dissertation

September 2017 – May 2018 Bangor, United Kingdom

- Conducted field Surveying and data collection.
- Develop research topics and analyze data to find any patterns, trends and implications on the topic.
- A (nearly) fully functioning Amazon Echo that responds to voice commands was built using a raspberry pi to test security in home automation.
- Techs: Python and LaTeX
